13 Warning: Token price may experience extreme volatility

The Tokens have not been and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”), and may not be offered or sold in the United States or to or for the benefit of US persons (as defined in Regulation S under the Securities Act) unless they are so registered, or an exemption from the registration requirements of the Securities Act is available. 13.1 Cryptographic Tokens or cryptocurrencies that possess value in public markets, such as ETH, have demonstrated extreme fluctuations in price over short periods of time on a regular basis. You must be prepared to accept similar fluctuations in Token value. Such fluctuations are due to market forces and represent changes in the balance of supply and demand. EscrowBlock cannot and does not guarantee any market liquidity for Tokens. Additionally, due to different regulatory requirements in different jurisdictions, and the inability of citizens of certain countries to open accounts at exchanges located anywhere in the world, the liquidity of Tokens may be markedly different in different jurisdictions.

13.2 By participating in the Crowdfunding, making donations to EscrowBlock, or receiving and holding Tokens, you acknowledge and agree that you fully understand that Tokens may experience volatility in pricing and liquidity, and that, to the extent permitted by applicable law, you agree that no other party (including, without limitation any EscrowBlock Foundation) may be held liable for any Loss arising out of, or in any way connected with your participation in the Crowdfunding, Donations to EscrowBlock, or receiving and holding Tokens.

14 Warning: Receiving Tokens has a number of risks

One such exemption allows the resale of Tokens purchased for their own account and for investment purposes only by investors who (i) are not otherwise affiliated with EscrowBlock Foundation, (ii) have been exposed for some time to the economic risks that ownership of Tokens entails, and (iii) are not part of the distribution of the Tokens.

Crowdfunding, make donations, or receive and hold Tokens. While some of these may have been relatively stable, it is possible that their values may drop significantly in the future, which may deprive EscrowBlock of sufficient resources to continue to operate.

EscrowBlock and Tokens could be impacted by one or more regulatory inquiries or regulatory actions, which could impede or limit the ability of EscrowBlock to develop the project.

14.4 Insufficient interest in EscrowBlock. It is possible that EscrowBlock will not be used by a large number of individuals, businesses and other organizations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of EscrowBlock.

14.5 EscrowBlock project may never be completed or released. The Donator understands that while EscrowBlock will make reasonable efforts to complete the end of deals, which belongs to EscrowBlock and the holders of the Token, it is possible that sales will never be completed therefore the profitability expectations of the Donator will not occur.

14.6 Theft. Hackers or other groups or organizations may attempt to steal Tokens.

14.7 Ethereum mining attacks. The Donator understands and accepts that, as with other cryptocurrencies, cryptographic tokens, and blockchain-based software systems, the Ethereum blockchain used for EscrowBlock Crowdfunding campaign is susceptible to mining attacks, including but not limited to double spend attacks, majority mining power attacks, “selfishmining” attacks, and race condition attacks. Any successful attacks present a risk to EscrowBlock Crowdfunding campaign, expected proper execution and sequencing of Token transactions, and expected proper execution and sequencing of contract computations.

14.8 Weaknesses or exploitable breakthroughs in the field of cryptography. Cryptography is a rapidly developing field with advances in code cracking and

The Tokens have not been and will not be registered under the United States Securities Act of 1933, as amended (the “Securities Act”), and may not be offered or sold in the United States or to or for the benefit of US persons (as defined in Regulation S under the Securities Act) unless they are so registered, or an exemption from the registration requirements of the Securities Act is available.
